Key Skills & Competencies

- ❖ **Technological Skills:** Programming and development in C, Java, Scala, SQL, HTML, Javascript, CSS and PHP.
- ❖ **Meeting Deadlines:** Able to prioritise individual workloads according to deadlines.
- ❖ **Analytical Skills:** Carry out statistical tests and analyse results in a quantitative manner such as tables and graphs.
- ❖ **Time Management:** Self-motivated to achieve tasks that have been set to agreed timescales.
- ❖ **Problem Solving:** Ability to solve problems in programs by modifying algorithms quickly and efficiently.
- ❖ **Working as a team as well as independently:** I have had group assignments during my studies, in which we collaborated as a group to design a presentation. I also work well independently, as I believe in my abilities and I am confident in embracing any challenges that come my way.
- ❖ **Reliability:** Excellent attendance in lectures and labs
- ❖ **Planning and Decision Making:** The ability to plan prior to any task and make judgments on the basis of available data under pressure.
- ❖ **Creativity:** Able to think outside the box in unfamiliar situations helping me deal with problems in a more efficient way.
- ❖ **Achieving Targets:** Working at Homebase over Christmas where higher individual targets were set and contributed towards total sales. All targets were met.

Education

De-Montfort University

September 2014 – May 2018

BSc (Hons) Computer Science

Second Year: 1st

Organisations, Project Management & Research (2:1)
Object Orientated Software Design & Development (1st)
Multi-tier Web Applications (1st)
Data Structures & Algorithms (1st)

First Year: 1st

Programming in C (1st)
Computer Law, Ethics and Portfolio (1st)
Elements of Computing (1st)
Computational Modelling (1st)

Chadwell Heath Academy (Chadwell Heath Foundation School)

September 2008 – June 2014

GCE A Levels in Double IT (A), IT (B) and Mathematics (D).

GCE AS Level in Physics (E).

10 A* to C GCSEs including A* to B grades in Mathematics, English Language, Science and Double Science.

Experience

July 2016 – September 2017

Nature of Business:

Position Held:

Responsibilities:

ID Business Solutions (IDBS)

Research and Development Software & Solutions

Student Software Developer

- To carry out implementation and maintenance of functionality in code for smaller areas of functionality in correspondence with user stories.

JAS Autos

MOT service and Mechanical repair centre

Voluntary work

- Shadowed a mechanic who looked at the vehicles of customers and diagnosing problems.
- Carried out parts of cars being serviced and doing customer MOTs.
- Interacted with customers to narrow down the problem of their vehicle.

Interests

I have been part of the Hindu Society; learning more about my culture expanding my knowledge. I have also, achieved up to Grade 2 in playing the piano. I have a major interest in computers and technology; researching and installing different virtual machines on my PC during my spare time. This persuaded me to look into the contents within files, which configured the virtual machines upon startup. I have previously taken part in charity for raising money for bake sales and Christmas OAP parties by serving food and entertaining guests.
